1. The following is an examiner's statement of reasons for allowance:

Claims 13-24 are allowable. The art does not show or suggest at least the claimed limitation of the image "to a narrow strip with sides of the same form as the overflow edge of the flotation cell. . . and everywhere an equal distance from the overflow edge of a flotation cell" as in claim 13, nor the imaging of "the froth slurry flowing down from the overflow edge of [a] flotation cell" as in claims 17 and 22. The art does not show or suggest processing an "image of a narrow strip of the surface of [the] floated material, the sides of said strip being parallel to the overflow edge of the flotation cell" in claim 19.

The art cited on the information disclosure statement does teach or suggest using an imaging arrangement to examine the froth in such a system (see the Guarini et al and Moolman et al articles cited as documents AM and AO thereon), but do not teach or suggest the limitation of the shape of the image or the viewing of the overflowing froth as claimed.

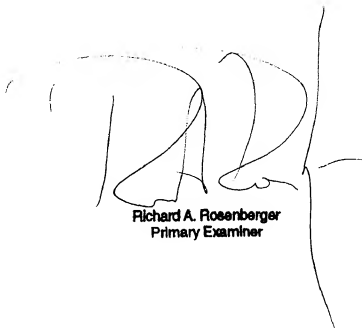

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
